

English Version (Japanese Translation)

screen ink

additive

For UV ink

Additive Applications Defoaming and defoaming | UV-curable type

JAR-9 Defoamer

Modified silicone-based defoamer.
Used in RL thick medium for each series.

Product Features

- When foam remains in thick printing, it is added for defoaming and defoaming.
- The finished transparency is better compared to silicone-based defoamers.

Features

transparency

Specifications

Lotus form	Characteristics
1kg Poly Bottles 500g Poly Bottles	mucus
